EXPERIENCE

LODGE COMPLIANCE - <https://www.lodgecompliance.com/>

San Fransico, United States

PropTech SaaS platform that automates short-term rental compliance for operators, governments, and booking platforms globally, covering permit management, tax registration, and regulatory enforcement.

Design Engineer

FEBRUARY 2026 – APRIL 2026

- Acting as the lead UX engineer for the ongoing visual refresh of the Lodge Compliance platform, responsible for content structuring, UX copy, and interface improvements across the site.
- Conduct site audits to identify broken pages, links, and usability issues while implementing design enhancements on key pages.
- Design and develop updates using Webflow, ensuring a consistent and functional user experience.
- Collaborate closely with the Founder and Compliance Manager to ensure that the platform's structure, design, and implementation remain aligned with compliance requirements and product goals.

AWARRI - <https://www.awarri.com/>

Lagos, Nigeria

Awarri is a tech company focused on enabling AI development in Africa, specializing in data collection, annotation, and validation. They are developing Nigeria's first large language model and promoting cultural preservation and fairness in AI. By empowering local talent and promoting ethical AI practices, Awarri aims to drive digital transformation across sectors.

Product Designer

FEBRUARY 2024 – PRESENT

AI & Data Infrastructure Startup

- Collaborated closely with a designer, engineers, and product stakeholders to deliver scalable UX solutions for internal and customer-facing products.
- Designed and maintained reusable UX components and design systems in Figma to support rapid product iteration.
- Took ownership of end-to-end UX workflows, from concept and wireframes to high-fidelity designs and handoff.

Website Redesign

- Co-designed Awarri's website with a focus on clarity, usability, and scalability, aligning brand identity with user needs.
- Improved navigation, content hierarchy, and visual consistency to support product expansion.

Ovation Theatre Data Tool (Internal B2C-like Workflow Tool)

- Designed a multi-view data interface (table, list, card, calendar) to improve usability and accessibility.
- Created secure authentication flows and role-based UX for multiple user types (Annotator, QA, Super Admin)
- Delivered advanced UX features, including filtering, sorting, grouping, and reporting to support efficiency and accuracy.

Audio Segmentation Platform

- Led UX design for a web platform enabling users to preview, edit, and segment audio datasets.
- Designed intuitive controls and workflows for large-scale data interaction, improving discoverability and usability.

LangEasy & LangEasy QA System

- Led UX design for a multilingual B2C-style data collection platform used by 1,000+ users, supporting over 400,000 voice and text submissions.
- Designed mobile-responsive and web interfaces optimized for local African language and cultural context.
- Built a QA platform with structured queues and validation workflows to improve data quality.
- Collaborated with international engineers, AI teams, and DevOps in a fast-paced startup environment.

PAHIL INNOVATORS

Nairobi, Kenya

Pahil Innovators is a Kenyan company dedicated to creating innovative solutions across various industries. They are currently developing Fikeni, a travel technology SaaS product designed to shape the future of sustainable travel and support conservation efforts.

VOLUNTEER UI/UX Designer

JULY 2024 – OCTOBER 2024

Travel & Sustainability Startup

- Contributed to UX design for **Fikeni**, a travel-tech SaaS platform.
- Designed the marketing website
- Designed user-friendly, mobile-responsive interfaces and refined user flows.
- Collaborated remotely with cross-functional teams using Figma, Miro, and Trello.

ESUSUAFRICA

Lagos, Nigeria

EsusuAfrica focuses on providing financial services through a digital platform that automates savings, loans, and financial management for African communities, offering a cloud-based platform for cooperatives and microfinance.

UI/UX Designer

SEPTEMBER 2023 – DECEMBER 2023

B2C Fintech Platform

- Led end-to-end UX design for a B2C fintech mobile app and web platform.
- Worked closely with product managers, developers, and marketers to deliver MVP designs.
- Designed intuitive financial workflows tailored to African users and cooperative systems.
